Global Market Highlights

The DJIA rose +1.05% on Friday (19/01), followed by S&P 500 (+1.23%) and Nasdaq (+1.70%). Wall Street closed the week strong posting all time highs as the market discerned an encouraging US economic outlook, led by the tech sector's rally on upbeat chip industry outlook. US Michigan Consumer Sentiment Jan-2024 came in at 78.8, overshooting the consensus (70.1), accompanied by a lower-than-expected Michigan 1Y inflation expectations of 2.9% YoY (vs. no change at 3.1% YoY), building upon soft-landing likelihoods. Today the market will be looking forward to several data releases such as: 1) China Loan Prime Rate 1Y; 2) China Loan Prime Rate 5Y Jan-2024; 3) US CB Leading Index MoM Dec-2023.

Domestic Update

The Prompt Manufacturing Index (PMI) by Bank Indonesia in 4Q23 stood at 51.20%. MNCS Comment: The BI PMI in 4Q23 experienced a decline compared to the 3Q23 realization of 52.93%, but it remains within the expansive level. We attribute this decrease to seasonality factors (4Q22: 50.06%). We expect an improvement in performance ahead, supported by festive momentum that can accelerate production volumes and the impact of the post-election period.

Company News

- 1. WEHA IJ optimistically aims for a 40% YoY revenue growth in FY24E (Kontan). MNCS Comment: We note that the company's revenue performance during 9M23 managed to grow 54.69% YoY with net profit growing strongly at 86.89% YoY. Opportunities for growth in the company's performance are still open, with the planned strategy including increasing the fleet number and adding new routes to the intercity shuttle (DayTrans) and logistics (DayTrans Express & DayMall) business lines as well as adding tourist destinations to the tourism services line (Explorer.ID). WEHA is currently trading at 7.94x/1.08x PER/PBV.
- 2. PANI IJ recorded a marketing sales (MS) value of IDR 2.4 trillion in FY23 (Emiten News). MNCS Comment: We note that the MS achievement exceeded the management's target of IDR2.1 trillion (realization: 114.3%). We anticipate this positive performance to continue in FY24E, where PANI targets an MS value of IDR5.5 trillion. This will be supported by VAT incentives and land expansion in FY23. Currently, PANI is traded at a PBV level of 31.22x.
- 3. CLEO IJ prepares IDR300 bn capex to build three new drinking water factories in Palu, Pontianak, and Pekanbaru this year. Management targets double digit growth on both top and bottom line for FY24 (Kontan). MNCS Comment: We assess this expansion as a positive catalyst to optimize the company's growth outside Java Island and holds the potential to boost the company's performance. Reflecting from the result in 9M23, the company recorded sales and net profit growth of +13.65% YoY and +36.03% YoY respectively. CLEO is currently traded at level 5.78x PBV.

IHSG Updates

The JCI weakened by -0.35% to 7,227.40 on Friday (19/01), followed by net foreign sell of IDR402.57 bn. Most sectors slumped and slowed the index down, led by the healthcare sector (-1.06%) and followed by the technology sector (-0.83%). Meanwhile, some growing sectors were led by the basic materials sector (+0.62%) and followed by the financials sector (+0.27%). The index declined as investors tend to wait and see the debate of vice presidential candidates for upcoming election held that evening. The Rupiah closed higher at IDR15,615/USD. We estimate the IHSG will move within the price range of 7,202-7,278. **Today's Recommendations: ADMR, BSDE, ITMG, PGAS.**
